Visit Clarinet-Now.com/clarinet-tuning-chart.htm to learn how to develop a tuning chart for your instrument. Categories are note (which includes four different clarinet ranges: Chalumeau, Throat Tones, Clarion and Altissimo) and tuner reading (-5 means five cents flat while 5 means five cents sharp. Zero means in-tune). Some notes repeat as common "chromatic" fingerings.

* Altissimo notes have numerous alternate fingerings. Tune the altissimo fingerings you most commonly use and try alternatives to hear (and see via tuner) what works best on your clarinet equipment.
